SUMMARY

Network Engineer and recent Computer Science graduate with a Diploma in Information Technology, strong foundation in TCP/IP, Routing & Switching, DHCP, DNS, and network troubleshooting. Experienced in Windows and basic Linux administration, Cisco Packet Tracer simulations and practical networking labs. Developed multiple web applications (Resume Screening & Analysis, Medi Cart, Online Quiz) demonstrating full-stack exposure and problem-solving. Completed internships converting research articles to XML and holds networking and hardware certifications. Seeking an entry-level Network Engineer role to apply technical troubleshooting and system configuration skills.

EDUCATION

B.Tech Computer Science and Engineering (CSE)

Dev Bhoomi Uttarakhand University
2026 | Dehradun, Uttarakhand

Diploma in Information

Government Polytechnic College
2022 | Almora Uttarakhand

SKILLS

Networking

TCP/IP, IP Addressing, Subnetting

Protocols & Services

DNS, DHCP, VPN

Network Troubleshooting

Network Connectivity, Internet Issues, Windows OS

Operating Systems

Windows 10/11, Basic Linux

Utilities

Ping, Tracert, Ipconfig, Nslookup

CERTIFICATION

Getting Started with Cisco Packet Tracer

Cisco Networking Academy

Microsoft Azure Data warehousing Tools

Microsoft Learn

Computer Hardware Basics

Cisco Networking Academy

INTERNSHIPS

XML Intern

Way2Class Pvt. Ltd.

02/2026 – 05/2026 | Dehradun

- Converted research paper content into IEEE/XML formats using XML schema and document validation techniques to ensure compliance and accuracy.
- Transformed LaTeX equations into XML to preserve complex mathematical expressions within structured documents.
- Performed quality checks to ensure integrity and consistency of converted documents.
- Collaborated with team members to meet tight deadlines and maintain workflow continuity.

PROJECTS

Home Office Network Simulation

- Designed a LAN topology and configured routers and switches using Cisco Packet Tracer.
- Assigned IP addresses, configured DHCP, and verified connectivity using Ping and Tracert.

Resume Screening & Analysis Web Application

- Developed a Resume Screening & Analysis Web Application to enhance recruitment efficiency.
- Led frontend development and backend integration to improve overall functionality and user experience.
- Implemented keyword-based resume-matching logic to score resumes against job descriptions.

Medi Cart Web Application

- Developed a user-centric web application for browsing, searching, and ordering medical products online.
- Implemented responsive frontend components using React.js, HTML5, CSS3, and Bootstrap/TailwindCSS.
- Integrated backend RESTful services with Node.js and Express.js to ensure efficient data handling.

Online Quiz Application

- Developed an Online Quiz Application to facilitate topic-wise quizzes with instant feedback and performance tracking.
- Built responsive UI and user authentication; tested REST API endpoints prior to integration.
- Engineered backend services and implemented a robust database for efficient storage and retrieval of user and quiz data.

EXTRA-CURRICULAR ACTIVITIES

Google Developer Student Club

Active member participating in events and community projects to enhance technical skills and collaborate with peers.

Hackathons & Competitions

Participated in hackathons and coding competitions to solve real-world problems under time constraints and collaborate with cross-functional teams.
